YOUR COUNCIL RATES EXPLAINED

Step 1

Total rates required to run the Local Government

Step 2

Rate in dollar calculated

Step 3

What you pay

Facts About Your Rates

How a boom can affect rates
During a boom, Councils increase employee wages to retain staff in a competitive jobs market, increasing budget requirements, which is to be recovered through rates.

How other charges affect rates
Services Councils pay for, such as street lighting, are often subject to price increases. These costs are passed on to councils which increases budget requirements, which in turn increases rates.

Home improvements can affect rates
If the comparative value of your home increases through renovations or an extension, the share of Council budget you pay in rates may increase.

Housing market movements do not affect rates
General changes in the Western Australian housing market have no impact on your comparative share of rates, due to all properties being affected.

Property rental values are independently set
The State's Valuer General sets values used to calculate individual rates according to the Gross Rental Value (GRV) a property could raise if rented. In many country areas, unimproved values (UV) are used according to land value.

How new Council projects affect rates
Councils strive to meet community requests for new facilities such as recreation centres, increasing Council budget requirements, which will be recovered through rates.

How costs of services affect rates
Did you know your rates may also pay for Council security vehicles, seniors programs, disability access and inclusion programs, rangers, community events, waste services and health inspections?

How community facilities affect rates
The local community determines priorities for services and facilities, which impact upon Council budget requirements, which in turn, increases rates.

DID YOU KNOW?

Community input

Council budgets are set to meet the aspirations, priorities and vision of their communities, as laid out in their strategic community plans. Your Councillors are part of your community – they live and work in your community and pay rates too.

Rate revenue

Rate revenue as a part of Council budgets, is one of the only discretionary levers Local Governments have to meet community priorities. Most other sources of revenue eg, grants and fees and charges are fixed.

COVID Impact

Many Councils froze their rates during COVID-19 to support their local communities through this difficult time.

Rising costs

No Councillors relish putting up rates but costs to fund facilities and deliver services have increased due to the inflationary pressures everyone in the community is facing. For example, rising fuel and construction costs.

Local Government Reform

Voting in the October 2023 Local Government Elections

The State Government is putting into action the most significant reforms to the local government sector in 25 years. The reforms will increase the transparency, accountability and efficiency of local government in WA.

One of the key reforms is the change from 'first past the post' system of voting to optional preferential voting (OPV).

This change will be introduced for the October 2023 local government elections which will now be in line with state and federal elections.

OPV will strengthen democracy by giving ratepayers a greater choice of candidates.

You can find more information about the reforms to the local government sector on the DLGSC website at www.dlgsc.wa.gov.au/lg-act-reform or use this QR code.

How to vote under the optional preferential voting system

It is really easy and it is all about choices – your choices. Just imagine there are three candidates. You can:

1 Vote for just one candidate

Just put a number 1 next to the name of that candidate.

- SMITH, John
- 1 DOE, Jane
- CITIZEN, Neville

2 Vote for some

Just put a 1 next to the name of the candidate you like best and a 2 next to your second choice.

- SMITH, John
- 1 DOE, Jane
- 2 CITIZEN, Neville

3 Vote for all

Put a 1 in the box for the candidate you like best and then a 2 for your second choice and a 3 for your third choice. If there are more candidates you just keep numbering if you want.

- 3 SMITH, John
- 1 DOE, Jane
- 2 CITIZEN, Neville

We're starting the collection of photos to feature in our 2024 calendar, and would love to see your pics!

Please note we only accept photos taken in the Yilgarn, and prefer photos to not include people in them (unless we receive permission from the person at the time of photo lodgement). Please include the location of the photo when submitting, and only submit photos for publicly accessible locations (no approvals required to get to the location).

Sometimes we get a lot of photo submissions, so unfortunately not every photo received will be featured.

Parents Group

The Southern Cross Community Resource Centre would like to invite all parents of babies/toddlers in town to attend an informal Parents Group in the library on Tuesday mornings starting from 9.30am. Come and have a coffee and relax in the company of other parents who are experiencing the same highs and lows you are. There are no expectations, just come along and enjoy some time out of the house in a supportive environment.

Brush & Bubbles

Thank you to all the ladies that attended what we hope to be the first of many Brush & Bubble events!

It was a small group of seven but we had a lovely relaxing time and are all looking forward to next one, where we hope to add to the numbers.

Thank you Southern Cross Coffee Lounge for the amazing nibbly boxes, they were fantastic!

Unfortunately no one was able to finish their artworks but they all took them home to either finish off or bring to the next event. Keep an eye out for when we advertise the next one!

Citizens who built this district between years 1887 and 1914

Fraser, Hugh: Discoverer of the rich Fraser's reef system in May 1888. The reef developed into the mainstay of Southern Cross for years.

Several mines were sunk along its half-mile length, with 'Fraser's' the premier mine. In 1889 Hugh Fraser floated his mine into a company by selling a half interest to raise money for machinery, the mine becoming the first operational gold mine in the Eastern Goldfields.

Hugh made a lot of money from his mine but poor investments took the lot. He died penniless in 1915 on the lease that still bears his name, and is buried in the local cemetery.
