Did You Know?

Did you know the pool costume worn by Yilgarn Swimming Club in the 1960's?

It had the constellation of Southern Cross on a blue background and the club's initials. Hands up if you can remember wearing it.

Southern Cross had a strong swimming club in those days, and several youngsters were under notice for their ability.

EDFL EDITORIAL

Another game under our belt, as we head towards the last 3 rounds, in what has been a difficult & challenging season to date, yet, in so many ways, it will set us up to prosper in the next few years, rather than just boxing on in the same old way & get the same old result, we have endeavored to use 2021 as our building platform for survival, structural changes & on-field future success! We simply continue to tick more boxes & search for overall improvement.

Our senior playing list of committed local players & including our travelling players are quality people, willing to play for the club & become good team- mates too! As the future begins to shape up & look good, as the hard work is beginning to show through, nothing comes easy, no magic wand, no pretenders, no cheat codes & definitely no short cuts, as character is at top of our list, hence why a few have fallen short, well short?

Our 4 year developing football plan is afoot, we want the local community to be proud of it's local football & sporting club & it's players, however, we need all the support at ground level we can get, come down to the home games, urge on these local lads, support & back them to the hilt, as the medium & long term future of the club is in their sure hands & yours too--we need all the support we can get, enjoy our club facilities, make your- self known & mix in, I'd be more than happy to talk to you & discuss our survival kit & football future.

The leadership group grow & develop as individuals, as they impart their knowledge & enthusiasm onto the rest of our playing group, the chain of command is up & running & effective, these people are co-- driving the team in conjunction with my-self as their football coach & mentor!

This week we take on Hyden / Karlgarin at home, top versus bottom team, but we are looking forward to the on-field battle, we now know we can challenge & run with these teams & learn from it too, good teams can bring out the best in you, individually & collectively, as we don't fear them!

Natural, Australian & sustainable

Kochii is the world's finest quality Australian eucalyptus oil, grown and produced in Western Australia.

We pride ourselves on our sustainable practices as we look to commission our first biochar plant in July.

By allowing the trees to grow and thrive without intervention we let nature do her job, extracting the oil through a centuries old steam distillation process.

What's in the bottle is the natural eucalyptus oil as nature intended.

Kochii Eucalyptus Oil
100% natural, 100% Australian and 100% sustainable.

Department of Primary Industries and Regional Development

The Department of Infrastructure, Transport, Regional Development and Communications is calling for feedback from people who live or work in regional, rural or remote areas of Australia as part of its *Regional Telecommunications Review 2021*.

The Department said the Regional Telecommunications Independent Review Committee (RTIRC), established every three years to undertake an independent review of telecommunications services in regional, rural and remote Australia, had released an Issues Paper setting out key areas of interest for the Review.

It said the biggest issue under review was the adequacy of the telecommunications services people in regional, rural and remote areas used on a day-to-day basis.

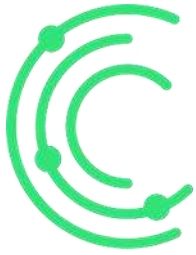

“The Committee is also focusing on changing trends in the use, the impact of Government policies and programs, insights from COVID-19, emerging technologies, service reliability, regional development, coordination between tiers of Government and the quality of consumer information,” the Department said.

“The RTIRC is seeking a wide range of views and experiences and is undertaking a consultation process with communities and local stakeholders,” it said.

“Your feedback will be important in setting the Government’s regional telecommunications policy agenda over the coming years.”

The Department said submissions would help the Committee understand the issues of concern in regional Australia and to develop recommendations to address those issues.

It said people could have a say on the Issues Paper until 30 September.
