Brand Redesign

The Shire of Yilgarn Council and Staff, in conjunction with the Tourism Advisory Committee is pleased to unveil the new logo for the Shire of Yilgarn, as seen on the Crosswords front cover.

The Tourism Advisory Committee, together with Market Creations Agency, developed a Tourism Marketing Strategy and Activation Plan, to seek to preserve, enhance and share the Shire of Yilgarn's culture, heritage, and natural and built environment.

The first phase of the strategy was brand development and awareness, with a modern logo identified as a key priority. The below image details the meaning behind the logo, there is also a great video put together by Market Creations Agency to show visually how the logo was developed. This is available on the new Shire of Yilgarn Facebook page.

The Shire now plans to raise awareness of the region, and has undertaken to develop a new website, dedicated to tourism within the district, to operate separately, but complimentary to the Shire's Council website. The website at <http://visit.yilgarn.wa.gov.au> is now live.

The site showcases some of the great places and events in the region. Of note is the community calendar, whereby community groups and businesses are encouraged to use the "What's On" section to list any events or important dates they wish to advertise.

The Shire of Yilgarn is also now social, with the new Shire of Yilgarn Facebook page going live. To follow, search @shireofyilgarn to keep up to date with Shire news. While you're there, make sure you check out the "Visit Yilgarn" tourism socials on Facebook via @visityilgarn, and Instagram via @visityilgarn (and the hashtag #visityilgarn) for some great images and stories from the region.

Finally, a big thankyou to the members of the Tourism Advisory Committee, with these volunteers putting in a mountain of work to get this project through to fruition. Stage 2 of the Tourism Marketing Strategy and Activation Plan will now be implemented, being tourism infrastructure improvements and measuring awareness.

Anyone interested in joining the Tourism Advisory Committee is encouraged to contact the Shire of Yilgarn on 9049 1001.

Early Childhood Class

Welcome to our Castle!

Year 2/3 Class

In the Year 2/3 Classroom, the term has got off to a roaring start. The children have made some wonderful tiger collages based on the work of artist, Henri Rousseau. Everyone worked hard to follow the steps needed to complete their collage and then added some individual touches of their own.

At Southern Cross District High School, our staff and students 'Strive' to achieve their personal best.

Year 4/5/6 Class

In Week 1, students began making their animal habitat dioramas (keep your eye out for photos in future newsletters), re-commenced their spelling and reading, and created symmetry artwork during Maths.

Last Thursday our class, along with the Year 3 students, participated in the T20 Cricket Carnival with St Joseph's and Moorine Rock students. Thank you to Melinda and St Joseph's for organising the day. The winning team for the day was Thunder (pictured).

Year 7-10 Secondary Classes

In Design and Technology, the Year 9 and 10 students have been learning to use the lathe. The end result has seen the production of some very beautiful wooden bowls.

Did you know?

Did you know it is almost a hundred years since farming took off in Yilgarn? The chief reason for the expansion was to repay returning soldiers from the Great War with land. Most were British. Despite the Agricultural Dept advising that Yilgarn was more suited to grazing than cropping, the government went ahead and moved the agricultural boundary from Walgoolan to Ghooli. Eleven hundred farms were created for eleven hundred families. A dozen schools were built. Farm size was a thousand acres as this was considered sufficient. Money was not needed as the Agricultural Bank was prepared to lend until settlers got on their feet, and the district flourished on the back of borrowed money. However the plan to make Southern Cross the centre of the Wheatbelt, failed. Farmers were just getting on their feet when they were hit by ten years of depression, followed by five years of war. The market price for wheat was less than the cost of production. Most new-land farmers walked off and surrendered their farms to the Agricultural Bank, with nothing to show for years of hard work. The worst hit areas were on the eastern fringe of the Wheatbelt: Bullfinch, Turkey Hill, Wheatley, Ghooli, and Miners Settlement. A reconstruction programme followed in the 1940's, with abandoned farms offered to those left on the land. Farm sizes increased to encourage broad acre farming. Unreliable rainfall was still a factor, and conditions had to be at their best for farmers to succeed. The industry then consolidated as neighbour bought out neighbour. The downside was losing farming families from the district, and the business and flow on effect this generated. What will the next 100 years bring!

COVID-19 Vaccination

Get the facts on the vax

The COVID-19 vaccines are new, and it is very normal for people to have questions. There is so much information – and misinformation – it can be overwhelming. Together, we need to build vaccine confidence because each and every vaccinated person helps us move past the pandemic.

TRUTH

MYTH

The vaccines are safe

Many people around the world worked together to create the COVID-19 vaccine, sharing money and scientists to get it done in just months, without missing any steps. Vaccines are only allowed in Australia after being tested and found to be safe and effective. All vaccines continue to be quality tested and monitored for safety.

The COVID-19 vaccines do not contain live virus and cannot give you COVID-19

The vaccines pretend to be the real virus and teach your body how to defend itself. This will help stop you from getting really sick and going to hospital or even dying.

The vaccine was approved too quickly to be safe.

The vaccine could give you COVID-19.

Get the facts on the vax

TRUTH

MYTH

We do know every ingredient that is in the vaccines

The vaccines are mostly water, with salt, sugar and fats. There is no graphene oxide, gluten, egg, wheat, bee venom, latex or animal products in the vaccines.

The vaccines are providing good protection against the new strains

Two doses of the Pfizer or AstraZeneca vaccine are very effective in protecting people from becoming seriously ill with the new variants, including the Delta strain.

You can choose to be vaccinated

You can make your own decision. Make sure you ask trusted people to help you find facts. False news can be very misleading and dangerous.

A microchip would not fit through the vaccine needle

This myth is based on a fake video circulating on social media.

COVID-19 vaccines can't change your DNA

The vaccines deliver instructions to your cells to build protection (immunity) against the coronavirus. This does not happen in the part of your cells where your DNA is.

Receiving a COVID-19 vaccine does not make you magnetic – anywhere on your body

COVID-19 vaccines do not contain any magnetic ingredients that could do this. You would need a lot of metal to attract a magnet. For example, people take multi vitamins which often contain iron. This doesn't make them magnetic because they are so diluted and spread through your body.

We don't know what's in these vaccines.

There's no point in getting vaccinated due to the new COVID strains.

Doctors want to force people to be vaccinated.

The vaccine contains a microchip to track me.

The vaccine will change my DNA.

The vaccine can make a magnet stick to your arm.
