# WA is setting off on a new journey.

With the WA EV Network.

## Driving the transition to cleaner energy.

Stretching from the top of WA in Kununurra right down to Esperance, and as far east as Kalgoorlie and Eucla, will be Australia's longest electric vehicle (EV) charging network. This is an enormous moment for our State. And with EVs producing on average 30% less carbon emissions than conventional petrol and diesel vehicles\*, this project is helping WA reach its net zero carbon emissions target by 2050.

\*Source – State Electric Vehicle Strategy for Western Australia

## Making EVs practical.

The WA EV Network will help connect WA and make electric vehicles an option for more people, whether they live in the city or out in the country. It will keep the regions open and thriving as our energy sources and needs continue to change. As EVs become more popular, the WA EV Network will open up travel and enable our community to explore this sunny State we call home.

## WA EV Network fully connected by 2024.

This ambitious WA State Government project is being delivered by Synergy and Horizon Power with support from Local Government Authorities.

## By 2024 the project is planned to:

-  Connect over 7000kms
-  With 98 EV charging stations
-  Across 49 locations

## Charged with confidence.

Along the WA EV Network there'll be an EV charging station every 200kms on average and each EV charging station will have a DC fast charger and a backup charger installed. Paying will be simple and allow people to use a credit card, a RFID card or an app to pay.

Charger sizes	Average charge time*
DC – 50kW:	41 minutes
DC – 75kW:	28 minutes
DC – 150kW:	14 minutes

\* Indicates charge time to add 200km range.  
Source: Calculations taken from the Electric Vehicle Council.

## Community benefits.

### Cleaner more sustainable future

Encouraging more EVs means less emissions than conventional petrol cars for a cleaner, more sustainable future.

### Connecting the regions

Fast EV charging stations will be available along major travel routes, connecting the regions to encourage tourism across WA.

### Job opportunities

Construction of the EV charging network is expected to create new job opportunities, including regional areas.

### Electricity network benefits

When managed correctly, EVs can help to smooth demand on the grid and improve network utilisation, which could help reduce system costs in the future.

## What Australia's longest EV charging network looks like.

Intended charging station locations for the WA EV Network:

For more information about the WA EV Network, reach out to your Local Government Authority or visit [synergy.net.au/EVNetwork](https://www.synergy.net.au/EVNetwork)

Western Australia is a vast State and a project such as this requires many people, across many organisations. So we'd like to thank the WA State Government and the Local Government Authorities for helping keep our State connected.

## COMMUNITY CHILD CARE FUND – ESTABLISHING CHILD CARE IN LIMITED SUPPLY AREAS

4 May 2023

Federal Member for Durack, the Hon Melissa Price MP, encourages Child Care Subsidy approved providers across the Durack electorate to apply for funding as part of the Community Child Care Fund – Establishing Child Care in Limited Supply Areas. This is a federal funding round facilitated by the Department Education.

“I am strongly of the opinion that we need to encourage and promote regional living, which obviously requires having childcare options available for local residents. I believe this funding round will help our regional towns to flourish, socially and economically. Families will enjoy increased childcare options, allowing them to participate in the work, social and physical activities they may have been unable to do because of the lack of childcare in their area” Melissa Price said.

The intended outcomes of the grant opportunity are to:

- establish new early childhood services in communities experiencing disadvantage in regional or remote areas, where there is a gap in the supply of approved services.
- support newly established services in communities experiencing disadvantage in regional and remote areas, to operate sustainably, engage local workforce, and address community level barriers to participation in early childhood education.
- increase the number of children from communities experiencing disadvantage in regional and remote areas accessing early childhood education.
- increase the availability of approved ECEC in communities experiencing disadvantage in regional and remote areas, with high unmet demand through capital works projects.

“By investing in child care centres in regional areas, communities can support families, promote child development, and create a brighter future for their children and the broader community.” Ms Price said.

**Applications for this funding round close Thursday 1 June 2023.**

## MEDIA RELEASE

### SMALL COMMUNITY GRANTS NOW OPEN

4 May 2023

The latest round of *Mia's Local Hero Grants*, a small grants program to help support local community groups across the Central Wheatbelt electorate is now open for applications.

Ms Davies said that in her role as the local State Member of Parliament she was pleased to support groups with the program offering small but meaningful grants to community and not-for-profit groups in the electorate.

"My latest *Mia's Local Hero Grants* program will provide amounts of up to \$200 for local groups who support and enrich the community they serve", Ms Davies said.

"This grant round is now open, and I'd encourage all eligible groups to make an application."

"The funds could be used to support or sponsor a local event, contribute toward the purchase of new equipment or materials, or to assist your group to better support your members or community."

Ms Davies said the grants provided an opportunity to show her support, thanks and appreciation for the hardworking volunteer and not-for-profit organisations that make such a difference in our community.

"The application process isn't onerous, but it is competitive so make sure you explain clearly how the money will be used and why it will benefit the community or people you support," she said.

"I'm looking forward to receiving the applications, and if anyone has concerns about their eligibility, they should contact my office."

This will be the 7<sup>th</sup> round of *Mia's Local Hero Grants*.

"I'm pleased to have delivered over \$45,000 in grant funding for 220 separate grants – going to groups in every Shire of the electorate of Central Wheatbelt," Ms Davies said.

Round 7 opens Monday 24<sup>th</sup> April 2023 and closes at 4.00pm on Friday 26<sup>th</sup> May 2023.

For application forms or further information on how to apply email: [mia.davies@mp.wa.gov.au](mailto:mia.davies@mp.wa.gov.au) or contact the electorate office directly on 9622 2871 (Northam) or 9041 1702 (Merredin).

**Join your Local Area Partnership Group (LAPG)  
to have a say in the parenting services offered in your community**

Your Local Area Partnership Group (LAPG) is made up of parents, and service providers who help us create a program of FREE parenting services that would better serve the region.

You will meet quarterly to provide feedback, advice and guidance to the local operations of Parenting Connection WA (PCWA). Your input can influence which parenting services will be offered and funded for our community. The option to join online is also available. Transport can be arranged. Children welcome.

## Pioneers of Yilgarn

### Stage 1.

Citizens who built this district between years 1887 and 1914

**Edwards, Alfred:** Connected to the government water supply in the early years. When the pipeline reached Southern Cross in 1902 he was appointed Inspector.

Edwards was a valuable citizen, receiving a Commendation for establishing the Senior Cadet Corp in Southern Cross. His Corp later became the nucleus for enrolments to the First World War.

Edwards' miners right dated 1889 indicates he was indeed an early arrival. He recorded his recollections of the early days and these are now invaluable for historians.
