At the Southern Cross CRC you can access Centrelink, Medicare and other government programs and services.

We are an Australian Government Agency of Services Australia Access Point.

Using our computer, you can log in to your MyGov account and do your business on the spot. There is a phone for you to access phone self-service or speak to an agency service officer.

If you would rather use your mobile phone or tablet, we have free Wi-Fi available 24/7.

You do not need a password so you can get online straight away.

You can also use the Wi-Fi to download and install the Express Plus mobile apps.

Our staff will even certify your identity documents for you.

So next time you need to do some government business, drop in and see us.

We are open Monday & Tuesday 8.15am-12.30pm, and 1.30pm–4.30pm, and Wednesday to Friday 8.15am-12.30pm at the CRC building on Canopus Street, Southern Cross.

**SHIRE OF YILGARN**  
**NOTICE OF PUBLIC ADVERTISEMENT**  
**RENEWABLE ENERGY FACILITY (WIND FARM) – LOTS 231, 640, 620 & 622 IN**  
**SOUTHERN CROSS**

A new application for the wind farm has been lodged to the Shire of Yilgarn. The application is identical to the previous proposal advertised in 2023, however this time the application will be determined by the Shire and not a Development Assessment Panel.

The application proposes a renewable energy facility (wind farm) on various lots located approximately 12 kilometres to the south east of the Southern Cross townsite.

Ten wind turbines are proposed on Lot 620, Lot 622 (No 282) Glendower Road, Lot 231 and 640. The lots are located between Great Eastern Highway to the north, Emu Fence Road to the east, and Southern Cross Marvel Loch Road to the west.

The application proposes up to 10 wind turbines, up to 10 MWh of battery storage, and associated infrastructure including transformers, above and below ground cabling, roads, crane hardstands, switch rooms and communication equipment.

The combined blade length and tower height of turbines will have a maximum height of 240m Above Ground Level (AGL).

Details of the application can be viewed on the Shire's website.

Written submissions may be made on the proposal by close of business on the **8<sup>th</sup> of August 2024**, Submissions can be posted to the Shire of Yilgarn, PO Box 86, Southern Cross WA 6426 or emailed to [rso@yilgarn.wa.gov.au](mailto:rso@yilgarn.wa.gov.au)

Submissions by email or in word format are encouraged.

# Facts About Your Rates

## How a boom can affect rates

During a boom, Councils increase employee wages to retain staff in a competitive jobs market, increasing budget requirements, which is to be recovered through rates.

## How other charges affect rates

Services Councils pay for, such as street lighting, are often subject to price increases. These costs are passed on to councils which increases budget requirements, which in turn increases rates.

## Home improvements can affect rates

If the comparative value of your home increases through renovations or an extension, the share of Council budget you pay in rates may increase.

## Housing market movements do not affect rates

General changes in the Western Australian housing market have no impact on your comparative share of rates, due to all properties being affected.

## Property rental values are independently set

The State's Valuer General sets values used to calculate individual rates according to the Gross Rental Value (GRV) a property could raise if rented. In many country areas, unimproved values (UV) are used according to land value.

## How new Council projects affect rates

Councils strive to meet community requests for new facilities such as recreation centres, increasing Council budget requirements, which will be recovered through rates.

## How costs of services affect rates

Did you know your rates may also pay for Council security vehicles, seniors programs, disability access and inclusion programs, rangers, community events, waste services and health inspections?

## How community facilities affect rates

The local community determines priorities for services and facilities, which impact upon Council budget requirements, which in turn, increases rates.

WORKING FOR LOCAL GOVERNMENT

**Please be advised that the Southern Cross Landfill Facility will no longer be accepting loads of Tyres greater than 200kg per load; loads exceeding this are deemed controlled waste.**

Government of Western Australia  
Department of Water and Environmental Regulation

Controlled waste fact sheet

## Transporting used tyres

### Are used tyres a controlled waste?

Yes. Any matter listed in Schedule 1 of the Environmental Protection (Controlled Waste) Regulations 2004 (Regulations), and that is within the definition of waste in the *National Environmental Protection (Movement of Controlled Waste between States and Territories) Measure* as varied November 2010 (the NEPM), is a controlled waste.

Waste means any:

- a) discarded, rejected, unwanted, surplus or abandoned matter; or
- b) otherwise discarded, rejected, unwanted, surplus or abandoned matter intended for:
  - i) recycling, reprocessing, recovery, reuse, or purification by a separate operation from that which produced the matter; or
  - ii) sale, whether of any value or not.

Tyres are considered a controlled waste and are subject to the Regulations even if they may lawfully be accepted at a Class I, Class II or Class III landfill facility.

### Do I need a controlled waste carrier licence to transport used tyres?

Yes. Regulation 11 specifies that a carrier who transports a controlled waste on a road must be licensed. The transportation of used tyres falls under

the Regulations as packaged controlled waste.

Packaged controlled waste is controlled waste which is transported in any manner other than in a tank. This may include transport of controlled waste in drums, skip bins, Intermediate Bulk Containers (IBCs) or the transport of solid wastes such as tyres and contaminated soil.

To transport packaged controlled waste on a road the carrier requires a packaged controlled waste carrier licence. The carrier's drivers and vehicles should be listed in the Controlled Waste Tracking System (CWTS) to operate under the licence. For more information about listing drivers and vehicles go to the [Controlled waste fact sheets](#) or contact the department on 08 6364 7000.

### Do I need a controlled waste tracking form?

A controlled waste tracking form (CWTF) must be completed for:

- all loads of bulk controlled waste
- packaged controlled waste equal to or greater than 200 kilograms or litres.

If transporting less than 200 kilograms or litres of packaged controlled waste, a CWTF is not required; however, the carrier must still be a licensed controlled waste carrier.

### How many used tyres would weigh 200 kg?

The size and weight of tyres is variable depending upon whether the tyre is from a car, truck, earthmover etc.

A standardised system for reporting volumes of tyres across Australia has been developed which converts all tyres to Equivalent Passenger Units (EPU) or standard car tyres based upon average weights of different tyre types. The average weights of each type of tyre are outlined in Table 1. In general, 200 kg would represent 25 used car tyres.

### How do I record used tyres on the CWTF?

For controlled waste tracking purposes tyres should be recorded in kilograms calculated by weighing the load, or using the number of tyres and the standardised weights in Table 1.

*Table 1 Average Used Tyre Weight*

Type of used tyre	EPU	Assumed mass
Motorcycle	0.5	4 kg
Passenger/car	1	8 kg
Light truck	2	16 kg
Truck and bus	5	40 kg
Super single	10	80 kg
Solid small	3	24 kg
Solid medium	5	40 kg
Solid large	7	56 kg
Solid extra large	9	72 kg
Tractor small	15	120 kg
Tractor large	25	200 kg
Fork lift small	2	16 kg
Fork lift medium	4	32 kg
Fork lift large	6	48 kg
Grader	15	120 kg
Earth mover small	20	160 kg
Earth mover medium	50	400 kg
Earthmover large	100	800 kg
Earthmover extra large	200	1600 kg
Earthmover giant	400	3200 kg
Bobcat	2	16 kg

### Where can I unload used tyres?

The Environmental Protection Regulations 1987 establish a Tyre Landfill Exclusion Zone. The burial of tyres within the Tyre Landfill Exclusion Zone can only occur at an approved site that has the written approval of the Chief Executive Officer.

The boundaries of the Tyre Landfill Exclusion Zone can be found in Schedule 5 of the Environmental Protection Regulations 1987.

Check with individual waste facilities to determine if tyres may be unloaded at their facility.

Additionally, tyres may be taken to a number of other types of waste facilities for re-treading, recycling or other purposes.

### Are my tyres still controlled wastes if they are being re-treaded or recycled?

Yes. In accordance with the definition of controlled waste outlined in the Regulations, regulatory requirements apply to controlled waste regardless of whether the material is being disposed, recycled, re-used or undergoing another treatment process.

However, once a used tyre has been recycled into another product, the product made from the used tyres is not considered a controlled waste and does not require tracking.

### If I am transporting used tyres interstate or from interstate into WA, do I need to use a CWTF?

Yes. CWTFs are required when transporting controlled waste on a road

in Western Australia (WA), regardless of the destination.

Specific requirements apply where a carrier or equivalent licence holder in another state or territory seeks to transport controlled waste into or out of WA.

For more information on controlled waste entering or leaving WA, see the [Controlled waste fact sheets](#) or contact the department on 08 6364 7000.

### Do I need to use a CWTF if my tyres are being exported overseas?

Yes. A CWTF must be used for all packaged controlled waste equal to or greater than 200 kg or 200 L when transported on a road in WA.

If the used tyres are being exported, the CWTF must be used to track the used tyres to the port for export. The transport of controlled waste via ship is not covered under the Regulations and therefore the port should be selected as the waste facility for tracking purposes.

Please be aware other agencies, including the Department of Environment (Cwth) have requirements regarding the export of waste.

### Penalties

Breaches of the Regulations can result in an on-the-spot infringement notice, penalties of \$250 or \$500, or a fine of up to \$5000, as determined by a court. Pursuant to s.40(5) of the *Sentencing Act 1995*, offences committed by corporations may attract a fine of up to \$25,000 as determined by a court.

Significantly larger penalties may result if there is a breach of the *Environmental Protection Act 1986*, such as pollution caused by the illegal disposal of used tyres. Prosecution can result in fines of up to \$1 million for a corporation, or in the case of an individual up to \$500,000 and/or imprisonment.

# Community News

## Thank you

The Yilgarn Community Support Group Inc. would like to give a huge thank you to the Anglican Parish Op Shop for their most generous donation. It is very greatly appreciated.

Thanks to the Shire of Yilgarn, the staff and their caterers, The Palace Hotel, for the lovely meal shared by the Seniors of the District.

## Pioneers of Yilgarn

Stage 1.

Citizens who built this district between years 1887 and 1914

**McDonald, Hugh:** Was one of the largest pastoralists in Yilgarn, leasing country from Yellowdine to Strawberry Rock in the early 1900's to run sheep and cattle. He was a pioneer of the industry. Without today's fences, losses to wild dogs was considerable, as was cattle hit by trains, and cattle poisoned by cyanide water around the mines. McDonald also owned a butcher's shop in Southern Cross. After the First World War his pastoral land was resumed by the government and surveyed into farms to become Miners Settlement.

# Prohibited Areas Exhibition

## An exhibition about the 1936 Prohibited Areas proclamations in the Goldfields region

The Prohibited Areas Proclamations are a part of Western Australia's hidden colonial history. Government proclamations were passed which prohibited Aboriginal people from within 6 miles of the town hall of many Goldfields towns and settlements, unless employed. These proclamations caused a great deal of distress as Aboriginal families tried to obtain food, water, health care and housing.

***This exhibition uncovers this period in history.***

## *Know someone who has cancer?*

Sadly, most of us know someone that has been touched by cancer, whether it be personally, a family member, a friend or even a neighbour.

At Comfort Quilts Against Cancer, we send a 'hug' in a parcel made by our network of volunteers, who work tirelessly to create something beautiful to bring comfort, love and support to those going through a tough time in their lives.

*"Piece by piece we aim to make an impact."*

Each care package is made up of a beautifully handmade lap-quilt, with a hand-knitted beanie and scarf for women, and a beanie for men and children, all wrapped in a ribbon.

These anonymous packages are sent directly to the nominated person and there are no limits on gender, age, or the location of the recipient, we deliver anywhere within Australia free of charge.

*One of our many testimonials:*

"I just wanted to send a message to say I received my quilt today, and honestly it brought me to tears. I've been struggling the past few days with my treatment and it was just the pick me up I needed."

If you would like to nominate someone you know, or make a donation to help us continue our Mission, please scan the QR code, or go to our website [www.comfortquilts.org.au](http://www.comfortquilts.org.au)

Comfort Quilts Against Cancer Inc. is a registered not-for-profit charity.
