# ANZAC Day

Shire of  
YILGARN

*"good country for hardy people"*

This year the Dawn Service was again well attended with many workers on shift change in Hi-Vis paying their respects.

Thank you to Gary Kenward who oversaw the Dawn Service and the Southern Cross Volunteer Fire & Rescue boys for once again providing a much enjoyed Gunfire Breakfast at the fire station afterwards.

Even with the school holidays the numbers were up from last year at the 11am service. With many enjoying the beautiful weather whilst paying their respects.

Thank you to the Shire President, Cr Truran for a wonderful job of emceeing the service.

Thank you to the student representatives who each read beautifully and once again helped by handing out the order of services and rosemary boutonnières on the day.

## Pioneers of Yilgarn

Stage 1.

Citizens who built this district between years 1887 and 1914

**Lang, Sam:** Sam was a forerunner in the cyanide process of removing left-over gold from old battery sands. In 1900 he teamed up with David Hatt to re-treat the dozens of tailings dumps stockpiled on every lease. The cyanide process had been borrowed from South Africa and rejuvenated Yilgarn mines for some years. Fortune smiled when the pair witnessed two natives poking the ground with spears.

The natives had discovered gold which Hatt and Lang pegged, the find becoming known as Hatt's Reward. The mine created much needed work for Southern Cross. Sam's house on lot 455 Altair Street still stands and is one of the oldest in town. Following the Bullfinch boom, Sam moved to Golden Valley to work the old Violet mine. He also built a battery and took in public crushings. This was a boon for the small mine owners.

Remains of the battery can still be seen today and is well worth a visit. Sam lived in Yilgarn for most of his life and died in 1948.

## Thank you

To my best mate—my wife,  
there aren't enough words for what you have done for me over the last few weeks. You were my angel on Sunday night when I hit the wall, you were my angel again on Tuesday for my big effort of rehab. All I can say is I love you up to God (which I think I met on Sunday night) and down to the worms, I love you.

To my Panda Bear,  
Dad owes you big time. You are my rock and my girl. I love you up to God and down to the worms.  
Your Daddy Darling

A huge thank you to people that sent messages through Lones facebook, thank you for the phone calls, text messages, the people that popped in, and to the people that have offered to help since coming home. Once again I thank you very much.

## Southern Cross Football Club

The day kicked off with our young Colts side lead by new coach Declan Karra. Although one sided on the scoreboard, this didn't show the hard fought, team work that our players delivered. This year the side is working harder as they have lost our 15 year olds who have had to move up to the Ressies side as per EDFL rules.

Thanks to Clint Della for doing the Reserves umpiring which meant he couldn't play alongside his son Noah in the actual game. The young boys that were home from school certainly topped up the side and worked well with the locals lads to finish down by only 5 points.

The League team were pumped coming off their win last week and were ready to take on the Blues with our home grounds advantage. At bounce down the Bombers got off to a good start with a great team effort and lead at every break. The Blues challenged the play all game, but the boys hung on to take away the win. The game was played in good spirit.

## Welcome to our Flu Vaccination Program for 2018

We are pleased to advise that we have now received our Government funded influenza vaccines. If you would like to be vaccinated, please phone to make an appointment at the practice on 9049 1147 or email us [reception@sxgp.com.au](mailto:reception@sxgp.com.au)

### **Who is eligible for free flu vaccinations?**

Under the Australian Government's Immunisation Program the following groups can receive a free flu vaccine:

- pregnant women
- children aged 6 months to less than 5 years
- people 65 years and older
- Aboriginal individuals 6 months and older
- people 6 months and older with medical conditions that put them at risk of severe flu, including:
  - heart disease
  - kidney disease
  - chronic respiratory conditions
  - chronic illnesses that required regular medical attention or hospitalisation in the previous year
  - chronic neurological conditions
  - impaired immunity
- children aged 6 months to 10 years receiving long-term aspirin therapy.

---

### **Private influenza vaccinations:**

We are offering private flu vaccines for a small cost to those who do not meet the above criteria, and also for those companies who wish to have their employees vaccinated. Please contact the practice on 9049 1147 for appointment scheduling.

---

### **Help to stop flu from spreading**

For best protection against flu, people are advised to get the flu vaccine in late autumn. This will help ensure they are protected throughout peak flu season, which in Western Australia is usually August. This follows recent evidence that shows flu immunisation may wane after 3 to 4 months (Department of Health WA, 2018)

Good hygiene practices, such as washing your hands thoroughly with soap and warm water can assist with reducing the risk of infection.

*Looking forward to seeing you soon.  
Be flu free!*

# Staying safe in the digital world.

Mobile phones, tablets and computers can play such an important part in our lives so it's worth taking a few precautions to keep your devices and personal information safe.

## Here Are A Few Tips:

- Be suspicious of things that could be scams:
  - Winning money or prizes
  - Asking to 'confirm' personal details via email
  - Avoid clicking on links or downloading attachments in emails or texts you don't recognise.
- Be selective about disclosing your personal information and credit card details, even if it looks to come from a legitimate organisation (call the company to double check if you're unsure).
- Stay with trusted websites and mobile apps. Well-known, reputable organisations are more likely to have secure websites.
- Use a strong and unique password that is a combination of letters and numbers.
- Install security software to help protect against viruses and malware and update regularly.
- Don't install software from untrustworthy sources.
- Back up important data regularly.
- Be wary of clicking on pop-ups (small internet browser windows that automatically pop up on your screen while you visit a website) which can feature scams and dangerous links.
- Avoid public Wi-Fi networks for transactions that require your personal details (shopping, banking etc).
- Lock your smartphone or tablet with a PIN, password or complex swipe to restrict access to your device should it be lost or stolen.
